MODEL 52103
INSTALLATION & OPERATION INSTRUCTIONS

SAFETY PRECAUTIONS:

1. Turn off power at main electrical service box before starting installation.
2. Electrical connections must comply with local code ordinances or national electrical codes.

INSTALLATION:

1. Assemble the mounting Bracket as drawing. Screw "A" into electrical box. The ground screw should then be attached to the mounting bracket (do not tighten).

2. Attach the black wire from the light fixture to the black wire in the electrical box. Attach the white wire from the light fixture to the white wire in the electrical box. Connect the copper ground wire from the light fixture to the mounting bracket.

3. Tuck all electrical wires into the electrical box and install the light fixture to the wall by aligning the hole in fixture with the Pipe on the mounting bracket. Secure in place with finial.
4. Screw off the ring cup on the head before installing proper bulb type and wattage (GU 10) is suitable

Note: Do not touch the fixture when the light is working because the heat will hurt you!
