Introduction

The TFX1 LED flood luminaire is a cost-effective, energy-efficient, long-life solution for replacing metal halide or HPS floodlights. Delivering 7,300 lumens, the TFX1 can replace up to 175W metal halide while saving 74% in energy costs. Reliable IP66 construction and excellent LED lumen maintenance will ensure a long service life; avoiding the multiple lamp changes of the metal halide luminaires they replace.

The TFX1 is available with 3/4" threaded knuckle and yoke mounting options.

FEATURES & SPECIFICATIONS

INTENDED USE

The TFX1 LED floodlight is designed to provide a cost effective, energy-efficient solution for the one-for-one replacement of existing metal halide or high pressure sodium lighting. The TFX1 is ideal for replacing up to 150W HID luminaires in parking lots, signage, yards, and other floodlighting applications. TFX luminaires deliver a uniform, wide flood light distribution.

CONSTRUCTION

The TFX1 LED floodlight features a die-cast aluminum main body with optimal thermal management that both enhances LED efficacy and extends component life. The light engines and housing are IP66 rated, and sealed against moisture or environmental contaminants.

ELECTRICAL

Light engine(s) configurations consist of high-efficacy LEDs and LED lumen maintenance is L84/100,000 hours. Color temperature (CCT) is 4000K with minimum CRI of 70. Electronic drivers ensure system power factor >90% and THD <20%. All luminaires have 6kV surge protection.

INSTALLATION

The 3/4" NPT threaded knuckle mount (THK) option can be mounted to conduit bodies or to 4" electrical boxes using the provided round mounting plate. The yoke mount (YK) option allows mounting to any solid surfaces and has a 30" SO cord. TFX luminaires are suitable for aiming in any orientation. TFX1 is rated for installation on ground. Can be tilted from 0° horizontal facing downwards, up to 180° horizontal facing upwards.

LISTINGS

UL Certified to meet U.S. and Canadian standards. Suitable for wet locations. IP66 Rated. DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product. Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

WARRANTY

5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

Performance Data

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-50°C (32-122°F).

Ambient	Ambient	Lumen Multiplier
0°C	32°F	1.05
5°C	41°F	1.04
10°C	50°F	1.03
15°C	59°F	1.02
20°C	68°F	1.01
25°C	77°F	1.00
30°C	86°F	0.99
35°C	95°F	0.98
40°C	104°F	0.97
45°C	113°F	0.96
50°C	122°F	0.95

Electrical and Lumen Maintenance Data

Electrical Load (Amperage)

Luminaire	Input Power (W)	120V	208V	240V	277V
TFX1 LED Input Current (Amperes)	54W	0.45	0.26	0.23	0.19

Projected Lumen Maintenance

Data references the extrapolated performance projections in a 25°C ambient, based on 6,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	50,000	75,000	100,000
Lumen Maintenance Factor	>0.91	>0.88	>0.84

Values calculated according to IESNA TM-21-11 methodology and valid up to 40°C.
