

SPLICE BOX

2PIN Low Voltage Splice Box

Make low voltage wire connections using this terminal junction box as a safe way to keep installations neat and tidy. Use with Class 2 low voltage systems via screw terminals for each conductor to ensure wire connections are secure. Snap closure casing ensures inside connections remain protected against accidental damage and tampering.

- 2-pin terminal box junction with snap closure
- Maximum 14 AWG stranded or solid wire
- Easy to use: insert stripped wire leads into the splice connector, tighten the screw terminals, and snap the lid closed
