BFMV

The BFMV is a fluorescent vandal-resistant fixture designed for surface mounting. It is well suited for indoor and damp locations, where vandal-resistant fixture is required.

FEATURES

- Full range of voltage options from 120-277V and 347V
- Vandal-resistant
- Injection moulded polycarbonate prismatic diffuser

OPTIONS

- Emergency Battery Back Up
- Tamper-proof fasteners

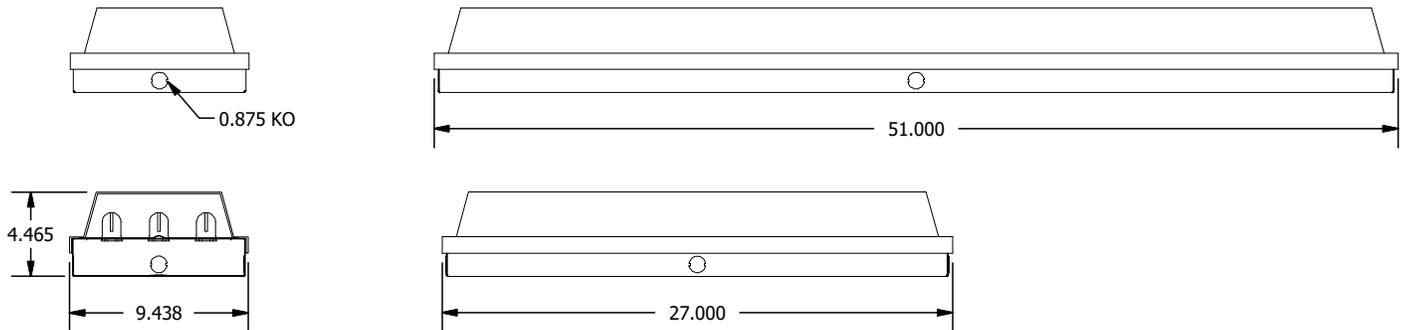

APPLICATIONS

- Display Cabinets
- Manufacturing
- Task Lighting
- Retail Stores

MOUNTING

Holes provided for surface mounting

DIMENSIONS

OPTICS

Pre-painted body in high-reflectance white. Injected moulded polycarbonate prismatic diffuser.

ELECTRICAL

All components are UL recognized

CONSTRUCTION

- Pre-painted white steel is precision bent for added strength and rigidity
- Deep body design allows for ease of installation and end power entry

APPROVAL

- Damp Rated
- ETL Certified

PRODUCT KEY

Fixture Type	Fixture Length	Lumen Output	Lamp Wattage	Lamp Type	Ballast Voltage	Ballast Factor	Options
BFMV		LP		T8			
	2'	1	17W		UNV	Low (L)	
	4'	2	32W		347	Normal (N)	
		3					

Options

Screws	Lenses
Blank - Standard Screws	Blank - Moulded Polycarbonate Prismatic Diffuser
SC1 - Vandal Resistant Screws	L72 - Moulded Polycarbonate Prismatic Diffuser with Foam Gasket
