

LED BULBS

Dimmable!

Ideal for all of your Agricultural applications!

LED lights are quality, long lasting lights that are efficient, durable and environmentally friendly. Their longevity saves you maintenance time and approximately \$195.00 in Hydro costs over the life of the bulb.*

In addition, Canarm LED bulbs work well with all lighting controls and are moisture resistant, making them ideal choices for wet, humid environments.

Plus, their soft white color provides a more natural illumination.

**Compared to a 60 Watt incandescent bulb - based on 9.5 cents/kwh over 40,000 hours.*

AVG. RATED LIFE	40,000 Hours	40,000 Hours	40,000 Hours

DAIRY LIGHTING

In many dairy facilities, barn lighting may be left on 24 hours a day, 7 days a week, so you need energy effective, long lasting bulbs to save you time and money.

Canarm's new LED bulbs also qualify for shatterproof requirements in dairy milkhouses applications for increased safety.

SWINE LIGHTING

Different swine production facilities require different light levels.

Whether you're building a new barn or updating an older one, you can actually increase the lighting levels in your facility while reducing maintenance required and decreasing energy costs.

For large areas like aiseways and farrowing rooms which require multiple lights, consider our new energy efficient bulbs.

POULTRY LIGHTING

Light levels and duration can affect bird behaviour, appetite, reproductive and egg production cycles and growth rates. Proper lighting has the ability to calm birds and helps them gain weight and be more overall productive. To achieve these different light levels, consider lighting programs with dimmable LED bulbs to provide optimum growth conditions for poultry.
