

Enerlites®

1-GANG METALLIC WEATHERPROOF BLANK COVER

MODEL NO: **7701-WP**

DESCRIPTION

The ENERLITES 7701-WP weatherproof blank cover plate is designed to cover unused outdoor outlets to protect the wiring from moisture, tampering, and outdoor exposure. Made from stainless steel and coated with scratch and corrosion-resistant powder, this blank wall plate is non-combustible and easily endures intense outdoor temperatures. The smooth finish and contoured edges of this metal wall plate also make it a safe choice for virtually any location.

FEATURES

- Quick fit installs in seconds
- Includes gasket and mounting hardware
- UV resistant, non-corrosive, non-conductive
