

Enerlites®

SINGLE POLE SWITCH WITH GUIDE LIGHT

MODEL NO: 91150-GL

DESCRIPTION

The 91150-GL is a single pole light switch with a built-in LED guide light. A daylight sensor automatically controls the guide light and turns on when a room becomes dark. The narrow body leaves room in the box for more wires. The impact resistant thermoplastic body is built strong to endure years of use as well as being resistant to a wide temperature range. You can transform the look of your home and increase its resale value with these modern switches.

FEATURES

- Self-Grounding
- High-impact resistant thermoplastic cover and body for long service life in commercial applications
- Green grounding screw and self-grounding clip for automatic grounding connection in grounded metal wall box
- Shallow design for maximum wiring room in box
- Removable yoke tabs for ideal alignment

SPECIFICATIONS

Amperage	15 Amp
Voltage	120VAC
