

Enerlites®

7-DAY DIGITAL IN-WALL PROGRAMMABLE TIMER SWITCH

MODEL NO: HET01

DESCRIPTION

The ENERLITES HET01 is an in-wall digital timer switch with 7-day programming. This timer switch allows users to program and save up to 18 unique pairs of ON/OFF settings. Program unique lighting schedules for all days of the week, individual days of the week, weekdays-only, or weekends-only. The digital timer includes a daylight savings time feature and a random mode that can be used for extra security when away on vacation. It features a large LCD screen with blue backlighting and a built-in battery pack that retains saved programs in the event of a power outage.

FEATURES

- 4 operating modes: manual, automatic, random
- Can also be used like a conventional on/off switch
- 18 customizable settings protected during power outages
- Built-in back-up battery lasts up to 14 days
- Bright Blue LED screen for easy programming
- Neutral Wire Required
