Product Selection Guide

LED Emergency Backup | Fluorescent Emergency
Ballasts | Emergency Lights & Exit Signs

A Pioneer in Lighting Electronics

Fulham is dedicated to clever, sustainable lighting solutions that give our users the power to create or install smart, differentiated lighting. Fulham's revered product quality and world-class customer responsiveness make us the preferred partner to over 3000 lighting manufacturers and distributors worldwide.

From our headquarters in Los Angeles, USA, and design centers around the world, our team of product managers and engineers work with our customers to conceive, design, and manufacture reliable, sustainable lighting solutions that bring cutting edge innovation to a global market.

04 LED Emergency Backup

HotSpot1 4

Field-installable LED backup capability for existing luminaires
OEM / Distribution

HotSpot2 5

LED backup for LED luminaires
OEM

HotSpot Plus 6

LED driver with integrated emergency backup capability
OEM

HotSpot 7

Constant Power
Field-installable constant power emergency output
OEM / Distribution

HotSpot EZ Exit 8

Inconspicuous emergency lighting for T-Grid ceilings
Distribution

09 Fluorescent Emergency Ballasts

FireHorse Ballasts 9

Reliable fluorescent backup

HotSpot Plus 70W Emergency System

The original all-in-one LED driver, emergency LED driver, and replaceable backup battery, the HotSpot Plus now provides 70W of power in an integrated, linear unit that lowers costs, simplifies installation, and provides emergency capability to smaller luminaires.

See page 6 for more

HotSpot EZ Exit

The innovative alternative to traditional emergency fixtures. Linear LED strips mount seamlessly in standard T-grid ceilings, with constant power emergency drivers mounted out of sight on top of the grid. During power outages the system provides at least 90 minutes of reliable, hassle-free emergency lighting.

See page 8 for more

CEC Title 20 Compliant Emergency Systems

Fulham is committed to lowering energy consumption in all its products, including its emergency lighting systems. We offer a full range of CEC Title 20 Compliant emergency products, including HotSpot LED backup systems, FireHorse fluorescent ballasts, and FireHorse emergency lights. CEC compliance is required for products used in California, and ensures low energy use when emergency systems are in standby mode.

HotSpot1 LED Emergency Systems

HotSpot1 systems add LED emergency lighting capability to existing luminaires, including TLED luminaires and retrofit projects. UL Classified kits are approved for field installation and are ideal for both fluorescent and Type A and B LED tubes. A complete kit includes an emergency driver, module, battery, installation instructions, and all necessary hardware and labels. The system operates independently of the luminaire's light source, ensuring compatibility with many types of luminaires.

HotSpot1 Emergency Driver

Model Number	FHS1-UNV-3.6L
Input Voltage	100-277VAC (UNV)
Input Frequency	50/60Hz
Input Current	0.06 A Max.
Input Wattage	10W Max.
Standby Input Power	<0.8W
Compatible Batteries	NiCd, 3.6 VDC
Battery Capacities	3AH, 4AH, 8AH
Total LED Power	1-10W
Illumination Time	90 - 360 Min.
Surge Protection	C62.41 (TVS)
Over Current Protection	Fuse
Recharge Time	32 - 48 Hrs
LED Connection	Parallel
LED Output Protection	Self Resetting PTC
Output Classification	UL1310/Class 2

HotSpot1 Emergency Modules

Model Number	Watts	Shape	Applications
FHS6-AR-3WL	3	Linear	Wall sconce, ceiling flush mount, low level lighting
FHS1-AR4-WL	4	Linear	Wall sconce, ceiling flush mount, low level lighting
FHS2-AR4-WC	4	Circular	Recessed down lighting, wall sconce cylinder
FHS5-AR-6W-CL	6	Cluster	Circular lamp applications
FHS3-AR-6W-SH	6	Small-H	Wall sconce, ceiling flush mount
FHS4-AR-8W-LH	8	Large-H	Wall sconce, ceiling flush mount
FHS3-AR-10W-SH	10	Small-H	Wall sconce, ceiling flush mount
FHS4-AR-10W-LH	10	Large-H	Wall sconce, ceiling flush mount

HotSpot1 Emergency Battery Packs

Model Number	Battery Qty/Type	Operation Duration	Output Power/Time	Dimensions (L x W x H)
FHSBATT3-C3	3/C	3 Amp/Hrs	4W: 145min, 6W: 90min	3.1" x 2.00" x 1.00"
FHSBATT3-D4	3/D	4 Amp/Hrs	4W: 200min, 6W: 125min, 8W: 90min	4.00" x 2.50" x 1.35"
FHSBATT3-F7	3/F	8 Amp/Hrs	4W: 360min, 6W: 235min, 8W: 175min, 10W: 135min	4.00" x 3.60" x 1.35"
FHSBATT3-F7L	3/F	8 Amp/Hrs	4W: 360min, 6W: 235min, 8W: 175min, 10W: 135min	11.75" x 1.56" x 1.37"

HotSpot2 LED Emergency System

The HotSpot2 emergency lighting system drives existing constant current LED modules during power outages. A complete system is composed of an emergency driver, emergency battery, and output wire harness. A wide range of lumen output and run times are available.

HotSpot2 Drivers

Model Number	FHS2-UNV-36L	FHS2-UNV-56S
Input Voltage	100-277VAC	
Input Frequency	50/60Hz	
Input Current	0.1A Max	
LED Currents	100mA - 700mA	
Standby Input Power	<0.8W	
Total LED Power	20W	
Input Surge Protection	2.5KV Ring Wave	
Over Current Protection	Fuse	
Illumination Time	90 - 350 Min	
LED Connection	Series	
LED Output Protection	Self Resetting PTC	
Output Classification	UL1310/Class 2	
Bicolor LED Indicator	Included LED indicator / test switch provides automatic system status updates	
Output Voltage	12 - 55VDC	12 - 56VDC
Dimension (L x W x H)	5.3" x 1.7" x .93"	9.5" x 1.19" x 1"

HotSpot Plus LED Driver Emergency System

The revolutionary HotSpot Plus LED Driver & Emergency System combines the functions of a dimmable, programmable LED driver, emergency LED driver, and replaceable backup battery in a single compact unit. Under normal conditions this all-in-one solution operates as a constant current driver; during a power outage the integrated battery automatically activates, providing reliable emergency illumination for safe building egress. Benefits include lower costs, simplified installation, and the ability to bring emergency LED capability to smaller luminaires.

- Output current can be programmed in 1mA increments
- Selectable emergency output:
40W models: 5W for 180 minutes or 10W for 90 minutes
70W models: 7W for 90 minutes by default, programmable for lower power and longer runtime
- Compact size and simple installation for maximum flexibility

Specifications

Input Current	0.45A @ 120VAC, 0.21A @ 277VAC	Battery Type	LiFePO4 6.4VDC
Power Factor	>0.9	Battery Capacity	3200mAh
THD	<20%	Recharge Time	12 Hours
Dimming Range	100% - 1%	Warranty	5 years
Advanced Features	Illuminated test switch, switchable self-diagnostics, user-selectable emergency power level		

HotSpot Plus LED Driver and Emergency System

The Power of Programmability

HotSpot Plus drivers feature Fulham's innovative SmartSet programming platform, which gives the user the power to create the right driver for any situation.

- Auto Programming capability for high volume usage
- Driver does not need to be powered during programming
- Programming via handheld controller or PC software

HotSpot Constant Power Programmable LED Emergency Driver

Provides programmable, constant power emergency output for LED luminaires. Advanced features include self-diagnostics, detailed data logging, and bicolor LED indicator/test switch. Meets CEC Title 20 battery charger requirements. Complete system includes emergency driver and emergency battery. Ideal for OEMs.

Driver Specifications

Model Number	FHSCP-UNV-10P-L-SD	RFI/EMI	FCC Part 15A Non-Consumer
Input Voltage	100-277VAC, 50/60Hz	Output Type	Class 2
Input Current	0.06A Max.	Ambient Operating Temperature Range	10°C to 55°C (50°F to 131°F)
Output Power	1-10W	Dimensions (L x W x H)	7.89" x 2.05" x 1.17"
Output Current	620mA Max.	Certifications	cULus, CE, ENEC, RoHS, CEC Title 20
Output Voltage Range	16-55VDC	Input Surge Protection	Line-Neutral 2kV, Line & Neutral-Ground 2kV

HotSpot Constant Power Programmable Battery Packs

Emergency Lighting

Reliable, energy efficient emergency lights in a variety of styles and sizes

FHEM10

Series	Housing Color	Options
FHEM10	W = White, B = Black	H = High Lumen Reflector, W = Wet Location

Low profile, thermoplastic emergency lighting unit with adjustable LED lamp heads.

FHEM10WHU

W = White

Blank = Damp Location, W = Wet Location

Low profile, thermoplastic emergency lighting unit with adjustable LED lamp heads. Universal voltage operation: 120-277VAC. High lumen reflectors, cULus listed, wet location version available.

Dimensions

Damp Location Version

Wet Location Version

**FHEM11**

Series	Housing Color	Options
FHEM11	W = White, B = Black	SD = Self-Diagnostic, RC = Remote Capable

Contemporary, low profile, quick-installing emergency light with fully adjustable heads.

**FHEM12**

Series	Housing Color	Operation
FHEM12	W = White	Blank = Damp Location, W = Wet Location

Damp location rated LED emergency fixture (wet location model also available). UL Listed, Dual Voltage (120V or 277V). Maintenance-free 3.6V NiCd Battery, Push-to-Test Switch, adjustable glare-free heads, "snap fit" construction installs quickly. 90 min. emergency operation.

**FHEM13**

Series	Housing Color
FHEM13	W = White, B = Black

Low profile, compact emergency light with fixed optics provides a consistent, predictable aiming pattern for wall or ceiling mounting.

**FHEM14**

Series	Voltage	Output	Lamp Wattage
FHEM141250	12V	50W	2 x 9W
FHEM1412100	12V	100W	2 x 9W
FHEM14650	6V	50W	2 x 7.2W

High Capacity units with larger batteries to operate additional remote lamp heads or extended emergency operation. 12 Volt units are ideal for operating remote lamps with long runs, minimizing voltage drop issues.

**FHEM15**

Series

FHEM15

Rugged, sealed and gasketed emergency units are ideal for wet or corrosive environments, providing resistance to dust, hose-downs, water spray and splashing water.

**FHEM16**

Series

Housing Color

Options

FHEM16W = White
B = BlackSD= Self-Diagnostic
RC=Remote Capable

LED, dual voltage (120V/277V) emergency fixture with NiCd battery that operates for 90 minutes in emergency mode. UL listed and damp location rated, available in white or black and with self diagnostic and remote capable options available.

**Accessories** Page 18**LED Exit Signs**

Dependable LED exit signs with slim profile and edge-lit options

**FHEX20 – Thermoplastic Micro LED**

Series

Housing Color

Letter Color

Operation

Options

FHEX20W = White
B = BlackR = Red
G = GreenAC = AC Only
EM = Battery Back Up

RC = Remote Capable

Slim profile thermoplastic LED exit sign offers long lamp life, energy efficiency and uniform illumination in an economical package.

**FHEX21 – Thermoplastic LED**

Series	Housing Color	Letter Color	Operation	Options
FHEX21	W = White B = Black	R = Red G = Green	AC = AC Only EM = Battery Back Up	SD = Self-Diagnostic (EM Only) DC = Dual Circuit (AC Only) SF = Spanish Faceplate

Thin-profile, thermoplastic LED exit sign offers long life, energy efficiency and uniform illumination in an economical package.

**FHEX23 – Recessed Edge Lit**

Series	Housing Color	# of Faces	Letter Color	Operation
FHEX23	A = Aluminum W = White B = Black	S = Single D = Dual	R = Red G = Green	AC = AC Only EM = Battery Back Up

Architectural LED Edge-Lit exit signs recess into the ceiling, offering superior aesthetic appeal.

**FHEX24 – Surface Edge Lit**

Series	Housing Color	# of Faces	Letter Color	Operation
FHEX24	A = Aluminum W = White B = Black	S = Single D = Dual	R = Red G = Green	AC = AC Only EM = Battery Back Up

Ideal for architectural applications, surface mount Edge-Lit LED exit signs offer specification-grade aesthetics with in-field installation flexibility.

**FHEX26 – Slim Wet Location LED**

Series	Letter Color	Options
FHEX26	R = Red, G = Green	RC = Remote Capable

Features a compact enclosure that is resistant to non-hazardous dust environments, corrosive atmospheres, hose-down water spray, or splashing water.

Emergency Lighting / Exit Sign Combo

Versatile emergency light and exit sign combination units with remote head capability

FHEC30 - Thermoplastic Micro LED Combo

Series	Housing Color	Letter Color	Options
FHEC30	W = White B = Black	R = Red G = Green	H = High Lumen Reflector

Energy-saving combination LED exit sign and emergency lighting unit in one compact, modern design.

FHEC31 - Thermoplastic Square Head Combo 5.4W T5 Wedge Base

Series	Housing Color	Letter Color	Options
FHEC31	W = White B = Black	R = Red G = Green	RC = Remote Capable SF = Spanish Faceplate

Energy saving combination LED exit sign and emergency lighting unit provides contemporary design, flexibility and multi-function capabilities.

FHEC33 - Thermoplastic LED Combo

Series	Housing Color	Letter Color	Options
FHEC33	W = White	R = Red G = Green	RC = Remote Capable

Injection molded, high impact, thermoplastic LED Exit Combo. Includes 2 factory-installed, adjustable square 12W high output LED heads.

**FHEC34 - Slim Wet Location LED Combo**

Series	Letter Color	Options
FHEC34	R = Red, G = Green	RC = Remote Capable

UL 924 listed for wet location. Includes two sealed and gasketed 1.17W weatherproof LED lamp heads. Features a compact enclosure that is resistant to non-hazardous dust environments, corrosive atmospheres, hose-down water spray, or splashing water.

**FHEC35 - Thermoplastic Slim LED Fully Adjustable Combo**

Series	Letter Color	Options
FHEC35	R = Red, G = Green	SD= Self-Diagnostic*, RC=Remote Capable*

Slim profile, thermoplastic LED Exit/Emergency Combo. Includes standard faceplate and fully adjustable LED lamp heads, all in a slender package.

*Options may be combined

**New York Approved Emergency Lighting / Exit Sign Combo****FHNY11**

Series	Description
FHNY11	9.6V, 3W, NiCd battery, two lamp heads

Steel emergency light with LED Heads designed for new or retrofit applications that need to meet New York City Standards. Ideal for hospitals, office buildings and schools.

**FHNY20**

Series	Description
FHNY20AC	20-GA steel, white housing, universal face, red lettering, AC only
FHNY20EM	20-GA steel, white housing, universal face, red lettering, battery back up

8" Steel LED exit sign designed to New York City specifications.

**FHNY23**

Series	Housing Color	# of Faces	Operation
FHNY23	A = Aluminum	S = Single D = Dual	AC = AC Only EM = Battery Back Up

8" Edge-lit exit sign designed to New York City specifications, provides superior aesthetics in a surface-mount design. Excellent LED performance and energy efficiency combined with infield installation flexibility.

**FHNY31**

Series	Description
FHNY31	Combo, 20-GA steel, white housing, single face, red lettering, Ni-MH battery, Three 9.6V, 3W LED lamp heads

Steel New York City approved LED exit sign and emergency unit combo with LED heads. Ideal for hospitals, office buildings and schools.

Chicago Approved Emergency Lighting / Exit Sign Combo

FHCH10

Series	Description
FHCH10	6V, 24W, sealed lead acid battery, two lamp heads

Steel emergency light designed for new construction or retrofit applications that must meet all City of Chicago listing requirements. Ideal for wall-mounted applications in stores, offices, hospitals and schools.

FHCH21

Series	# of Faces	Directional	Operation
FHCH21	S = Single D = Dual	NA = No Arrow DA = Double Arrow LA = Left Arrow RA = Right Arrow	AC = AC Only EM = Battery Back Up

Additional Faceplates

FHCHGONA = No Arrow
FHCHGORA = Right Arrow
FHCHGOLA = Left Arrow
FHCHGODA = Double Arrow

FHCHGOST = Stairs
FHCHGOSTRA = Stairs Right Arrow
FHCHGOSTLA = Stairs Left Arrow

Heavy duty steel exit signs are Chicago approved. Ideal for applications such as schools, offices, retail and hospitals.
