

Ceiling Pendant

42333B
INSTALLATION SHEET

START FROM HERE

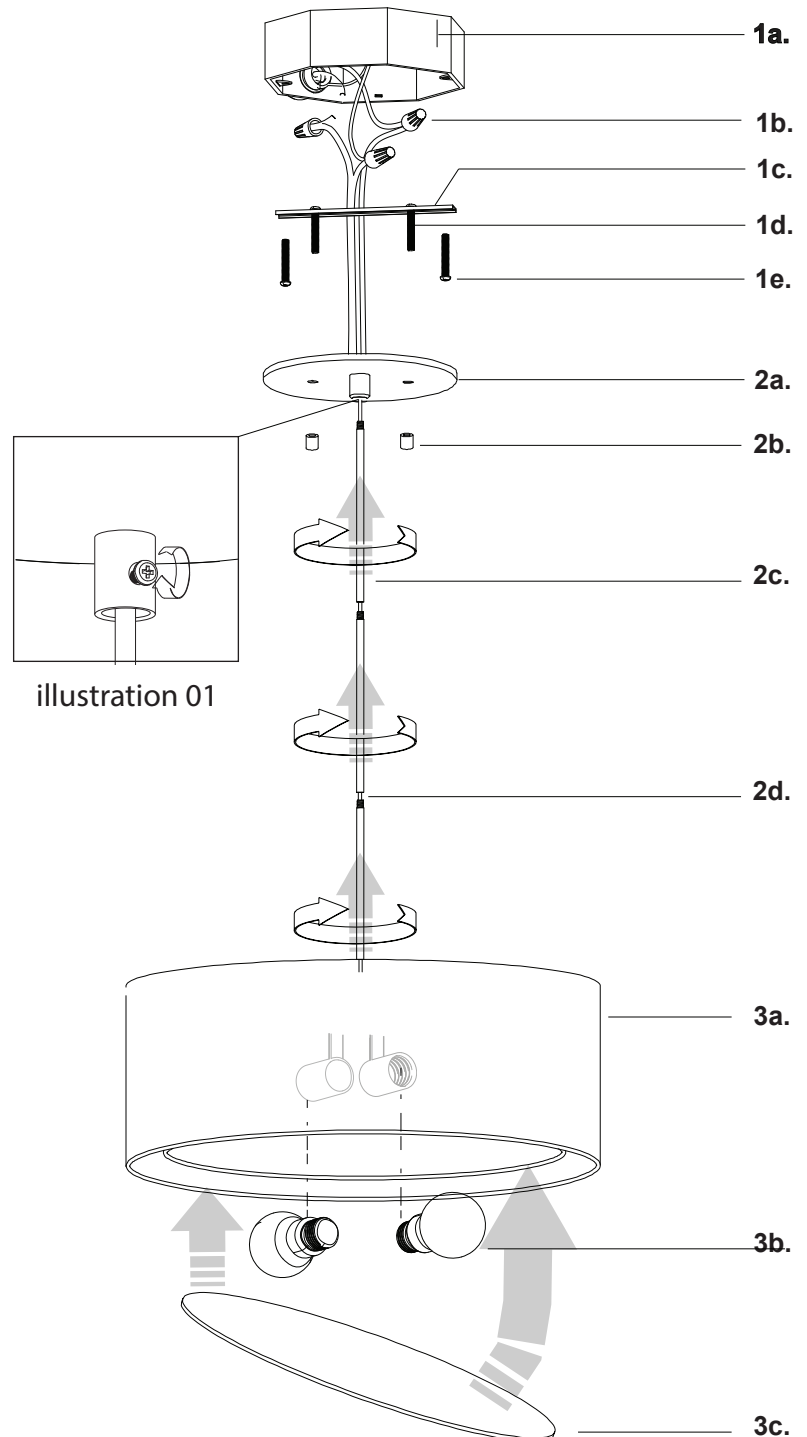

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Next, remove the mounting bar (1c) from within the canopy (2a) by un-threading the two nuts (2b). Secure the mounting bar (1c) to the junction box with screws (1e) provided in the hardware package.
2. Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. To shorten or lengthen the pendant just remove or add conduit sections (2c) by threading clockwise for adding and counter clockwise for removing. Next, feed the lead wires (2d) up through the conduit and into the canopy (2a). Affix the conduit sections to the canopy and secure by tightening lock screw (illustration 01).
3. You are now ready to mount the canopy. First, connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrettes (1b) from the hardware package. Align the threaded studs (1d) with the holes on the surface of the canopy (2a). Next, push the canopy (2a) to the mounting bar (1c) thread on the two nuts (2b) on to the threaded studs (1d). This will secure the canopy to the mounting plate.
4. Now that your shade is installed you can install the A-19 light bulbs (3b) of the correct wattage.
5. Lastly, set the diffuser (3c) into the shade. A good method to do this turn the diffuser (3c) on the angle, slightly bend or arch the centre using both hands. Pass this through the centre of the shade (3a) and release.
6. You have now completed the installation of your fixture, enjoy.
