

Round Flush Mount

504103
INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

CAUTION: HEAVY FIXTURE, THE JUNCTION BOX NEEDS TO BE REINFORCED BEFORE INSTALLATION.

1. Remove the fixture from its original packaging. Next, remove the mounting plate (1d) from within the canopy (2a) by decoupling from screws (1c).
2. Connect all wires (1b) correctly black to black "L", white to white "N" and the ground wire with provided marrets from the hardware package. Secure the mounting plate (1d) to the junction box (1a) with screws (1e). Align the mounting plate screws (1c) with the holes on the surface of the canopy (2a). Next, place the canopy (2a) to the mounting plate screws (1c) and twist clockwise, this will secure the canopy to the mounting plate.
3. Next, connect the fluorescent light tubes (2d) to the housing (2c).
4. Lastly, lift the diffuser (2e) to the canopy (2a) and thread the four screws (2b) through the canopy (2a) until snug to the diffuser (2e).
5. You have now completed the installation of your fixture, enjoy.
