

LED Flush Mount

FM4225
INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging. Next, remove the mounting plate (**1c**) from within the canopy (**2a**) by un-threading the two glass covers (**2c**) and removing the two **white** screws (**2b**). Secure the mounting plate (**1c**) to the junction box with screws (**1e**) provided in the hardware package.
- 2.** Connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrets (**1b**) from the hardware package. Attach the canopy (**2a**) to the mounting plate (**1c**) by using the two **white** screws (**2b**) provided.
- 3.** Once this is complete, thread the two glass covers (**2c**) clockwise to the canopy.
- 4.** You have now completed the installation of your fixture, enjoy.
