

The smartest way to take control of lights and power, optimized for whole home use

Smart Lighting lets you set the exact lighting you need, from anywhere, adding safety and convenience to your home. And delivering it all with unprecedented range and reliability, adorne® with Netatmo leverages leading Netatmo technology to provide an ideal solution for larger homes with many smart products. Start with the Smart Gateway to establish a robust and dedicated mesh network, then add smart switches, dimmers and outlets to build a solution that perfectly fits a home's unique space and needs.

The Wireless Smart Dimmer with Netatmo can be added to any wall, or virtually any surface, to gain dimming control of a light or fixture from an additional location -- no wires necessary. Use the included adhesive to mount anywhere in minutes, no tools required. An ideal solution for large rooms or areas with multiple entrance/exit points that are not wired for 3-way control.
