Mini LED Step Light with Photocell

Source: 1W LED

19lm / 29lm

Type

Project

Catalog No.

Notes

PRODUCT DESCRIPTION

Mini LED Step Lights use the latest technology in solid state lighting. The energy saving photocell option allows the step light to turn on in the dark and off in the morning or at presence of light. Mini Step Lights are available with louvered or lensed face and can be easily installed in a standard single gang switch box. Louvered unit includes both a horizontal and vertical louver. Use in hallways entrances, stairways, wall bases or any indoor application requiring a low profile, recessed fixture.

FEATURES

- Internal brackets for installation hardware.
- cULus Listed for Wet locations.
- Heavy duty, low profile aesthetic louver trim.
- 90+ CRI
- AC LED (no driver)

SPECIFICATION

LED Source: Standard mini step lights offer a total load of 1W. Mini step lights with integral photocell offer a total load of 0.7W.

Installation: Easily installs in a standard single gang switch box.

Construction: Galvanized Steel

Photocell: Photocell sensor comes pre-installed in step light's face. The energy saving dusk to dawn feature turns the LEDs on in the dark and off in the morning or the presence of light.

Face Plate: Lensed face plate includes tempered glass and louvered face plate includes a horizontal and vertical louver.

ELECTRICAL

Voltage: 120VAC

Color Temperature: 3000K
