Additional Specification Information

¹ For actual lumens, see performance table

² "XX" is a character placeholder for the manufacturing configuration

³ Actual performance may vary by up to ±10% of values listed; facility factors and fixture options can affect performance values. Values test results, and performance tables are based on an open area application at 277v

⁴ Weight and depth will vary based on option selection

⁵ Feature and design accessory option is only available with **NDXX** driver type

⁶ Feature/accessory option is only available with **FDDX** driver type

⁷ Requires the purchase of a Platform power cord. Cord is not included with fixture purchase

⁸ Fixture with Battery Back Up cannot be installed in an environment where the ambient temperature falls below 32°F

⁹ **-EN** is limited to -35°C [-31°F] environments

¹⁰ Contact customer service regarding additional commissioning and back end control system pricing.

¹¹ All Sensors come standard with a Raw Aluminum housing finish. Dark Gray and White housings are available. For Dark Gray add "**-DG**". For a White Housing add "**-WH**" at the end of the sensor part number

¹² Cannot be used with an end mounted control

¹³ **ML** (Mate-N-Lock) is only available with a **NDXX** driver type unless used with an integrated dimming capable control [**MCxx, WSxx, -DT, or -EN**]

¹⁴ **ML** (Mate-N-Lock) or **HW** (Hardwire) fixture option is not available with OEMS1 style sensors

¹⁵ Fixture with battery backup requires a hardwired fixture connection

¹⁶ Requires the use of a platform (PF) fixture, cannot be used on battery backup (BB & BE) fixtures, and cannot be used with a full dimming external (non-fixture) control system
