

LED Strip Lights

MODEL SL120-25M

ORTECH

Instruction Manual

WARNING

WARNING — THE INSTALLATION MUST BE CARRIED OUT BY A QUALIFIED ELECTRICIAN.

1. LED Strip Lights are suitable for using in dry location
2. Please keep the LED Strip Lights away from any corrosive substance, and please use dry cloth when you clean it
3. LED Strip Lights can only be installed by a qualified electrician
4. Before installation or maintenance, please disconnect the power to prevent electric shock

Application Notice

1. Installation MUST be installed in accordance with applicable electrical codes by a qualified electrician
2. DO NOT turn LEDs on when still on reel. The lights MUST be pulled out
3. DO NOT secure strip lights with nails or staples
4. ONLY cut LED strip at designated cut lines

CAUTION

PLEASE READ INSTRUCTION BEFORE COMMENCING INSTALLATION AND RETAIN FOR FUTURE REFERENCES.

Electrical products can cause death or injury, or damage to property.

If in any doubt about the installation or use of this product, consult a competent electrician.

INSTALLATION GUIDE

1. Measure area needed for strip light installation.
Cut the LED strip to the length at the closest cut line. Peel 3M TAPE off back of the strip
2. Press strip firmly in place with 3M tape backing.
Double confirm the wattage and length to choose a power supply that is larger than the total
3. Make sure the positive (+) and negative (-) wire on the strip light are matching with the power supply
4. Cut as needed lengths of strip lighting off the roll. Use easy connectors as new power line by sliding strip under contacts on connectors and making sure contacts match solder points
