

Project:

Constellation Aries

36" Rectangle LED

Pendant Spec Sheet

SKU: 2016.13C-27

Constellation Aries brings new application possibilities to SONNEMAN's iconic Constellation series. This collection of chandeliers has been designed with shorter lengths to accommodate lower ceilings and intimate spaces. Illuminated hubs connected in linear strands of various lengths are suspended to form dramatically powerful luminance within a horizontal space. The new Constellation Aries is available in four configurations, with faceted crystal or soft white lens options, and a new Espresso Black finish.
