

200W LED Highbay Fixture

For High Ambient Temperature Applications

Description

Venture Lighting's Modern Highbay luminaires are low profile, durable, and designed for long life and low maintenance. This fixture is specially design to quickly and easily upgrade existing HID and Fluorescent fixture in a high ambient temperature environment.

Construction

The high performance LED source is mounted to an aluminum heat sink which is designed to ensure proper thermal management of the system. This design allows for a cooler running LED chip which leads to longer lifetime, better efficacy, and color consistency. Fixtures are rated for an ambient operating temperature range -30°C to 60°C. Modern high bay luminaires are water and dust resistant, with IP65 rating.

Optics

The 200W units are equipped with a 90 degree beam spread for higher mounting heights and are also field adjustable with an accessory lens.

Electrical

The power supply has a range of 120-277V, 50/60 Hz. The luminaire is rated for damp and dry locations.

NOTE: This fixture is not suitable for dimming
