

# 150W VSolution LED Highbay

Order Code: HB43219

## Description

Venture Lighting's highbays are low profile, light weight, and designed for long life with low maintenance and great performance. These LED luminaires are designed to quickly and easily upgrade existing HID and fluorescent fixtures.

## Construction

The high performance LED source is mounted to an aluminum heat sink which is designed to ensure proper thermal management of the system. This design allows for a cooler running LED chip which leads to longer lifetime, better efficacy, and color consistency. Fixtures are rated for an ambient operating temperature range -22°F to 104°F (-30°C to 40°C).

## Optics

The units are equipped with a 90 degree beam spread for higher mounting heights and are also field adjustable with an accessory lens.

## Electrical

The power supply has a range of 120-277V, 50/60 Hz. 0-10V DC dimming capability is standard. Fixtures are IP65 rated, suitable for wet locations.

## NOTE:

\*Lumen maintenance data is based on LED testing per IESNA LM-80-08 and projected per IESNA TM-21-11
